DETAILED ACTION

Applicant's amendment, terminal disclaimer, declaration, and associate power of attorney filed 17 June 2002 is acknowledged. Accordingly, claim 30 is cancelled and claims 21-30 are pending and under examination.

Response to Arguments

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Information Disclosure Statement

Claim Rejections - 35 USC § 112 1st Maintained

1. Rejection of claims 21-30 under 35 U.S.C.112, first paragraph is maintained for reasons set forth in the previous office action. The traversal is on the grounds that degeneracy of the genetic code is a well known concept to those skilled in the art and is discussed in Section 2144.09 of the MPEP. The MPEP indicates that most amino acids are specified by more than one nucleotide sequence or codon and thus applicants invention is enabled. Applicant's arguments have been considered but are not persuasive because the specification does not disclose how to hybridize a degenerate of SEQ ID NO:2 to a target polynucleotide sequence. There is no guidance as how to detect a target polynucleotide in a test sample by hybridizing nucleic acid strands, which are not complementary to one another.

Double Patenting Rejections -Withdrawn

2. Rejection of claims 21-30 under 35 U.S.C.112, first paragraph is withdrawn in view of terminal disclosure submission.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
